

APHL ASSOCIATION OF
PUBLIC HEALTH LABORATORIES

SENIOR SPECIALIST, LABORATORY - AMR (KENYA)

Position Description

Background

The Association of Public Health Laboratories (APHL) is seeking applications from energetic, motivated, and innovative candidates for a Senior Laboratory Specialist-Antimicrobial Resistance (AMR) Project Lead position who will be responsible for training and mentorship on Quality Management System (QMS), AMR phenotyping and genotypic testing, and procurement of laboratory supplies to support the Applied Science Hub (ASH) project. This position will be based in Nairobi with occasional travel to other parts of the country where APHL is implementing this project. He or she will report to the in-country APHL Country Director. APHL (www.aphl.org) works to strengthen laboratory systems serving the public's health in the United States and globally.

The candidate will serve as a full-time APHL staff member until September 29, 2024, with renewal subject to satisfactory performance, scope of work and availability of funds

More information and the application process can be obtained at the link; **Senior Specialist, Laboratory - AMR (Kenya)** or go to career opportunities at APHL website www.aphl.org
